STADIUM NOWHERE

An intervention in Ljubljana
friday 12.06.2015 at 11.00 am

The Bezigrad Stadium is fenced off, closed to the public and torn between different interests.

Stadium NOWHERE is the story about how Bezigrad Stadium got made and un-made, told via seven nomadic structures manifesting the passage of time and “Historical moments” of the Stadium.

The seven nomadic structures unfold the history of the Stadium while walking into every day life of Ljubljana, inviting to a discussion about the future of the Stadium.

Stadium NOWHERE is an artistic research done by Danish architect Gitte Juul in collaboration with students from the Faculty of Architecture in Ljubljana.
