STANKO KRISTL, ARHITEKT

Humanost in prostor

Odprtje razstave:
torek, 19. december 2017, ob 19. uri

Stanko Kristl, arhitekt, profesor, raziskovalec, inovator, humanist, akademik ter nenehni kritik in sooblikovalec vsakdana, sodi med najvidnejše slovenske arhitekte; njegova dela, od vrtcev, šol, bolnišnic, domovanj do spomenikov, so v času svojega nastanka vznemirjala domačo in mednarodno javnost – in to zanje velja še danes. Kot arhitekt v najširšem smislu skozi svoje projekte in raziskave nenehno zastavlja temeljno vprašanje: *kaj je arhitektura v odnosu do človeka?*

Vljudno vabljeni!
