| TECHNISCHE UNIVERSITAET WIEN                                                      | A WIEN02     | AT     | WIEN      | 0731 architecture and town planning | ✓                  | 2                 | 20              | arhitektura; 1.-3. letnik doktorski študij - prednost | 2                                   | nemški, angleški      | Students will need a proof of language competence according to the main language of instruction: - If students planning to take courses in GERMAN language, a proof of language competence at least level A2 of the CEFR is requested. Accepted certificates: certificate A2 or higher, secondary education diploma in German, Confirmation of home university. If students taking a German class on level A2 during registration time and don't have a certificate yet, they can upload a confirmation of participation of the course A2. Please mind that A2 is the basic requirement! Students will need German skills at level B1-B2 to follow lectures and pass exams successfully. We strongly recommend taking one of our German courses if students haven't reached level B1-B2 until they arrive in Vienna! - If students planning to take courses in ENGLISH language, a proof of language competence at least level B1 is requested. Accepted certificates: certificate B1 or higher, secondary education diploma in English, Confirmation of home university. Students planning to work on bachelor/master thesis: English can only be used as working language with the prior approval of the supervisor at TU Wien. |                                                                                                     | www.tuwien.ac.at/international                                                                                                                                                |                                                                                | ✓                   | ✓                        |

On the contrary, a good level of English is strongly recommended. Several courses (including all the design studios and most of the elective courses, mainly in the master level) are taught on both English and Greek or only English, depending on the interest and participation of exchange students. In addition to these, one course ("Approaching Greek Architecture") is organized every year exclusively for the exchange students, therefore offered in English. More alternative solutions for them (corrections in English, international bibliography etc) are always available. The exchange students are not obliged to written texts or written exams in Greek. Moreover, for those of them who wish to get familiar to the language, Greek language courses for beginners and/or advanced students are organized, free of charge, every year. |               | www.ntua.gr; www.arch.ntua.gr                                                                                                                      |                                                                                                                | ☑                   | ☑   |
