

Transformacija

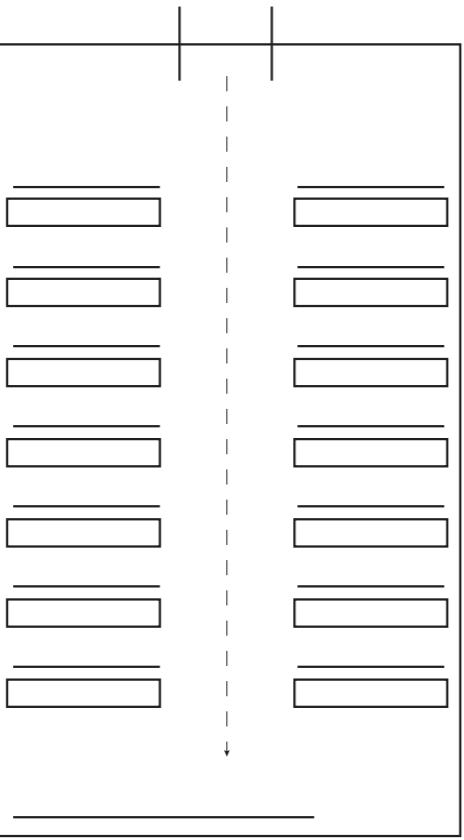

Z veliko denarja je enostavno opremiti prostor. Kaj pa, če tega denarja ni in se mora življenje nadaljevati?

Kaj pa, če imamo le kup starih desk iz razrezanega paviljona bienala, nekaj mizarskega orodja in prazen prostor, ki ga je treba spremeniti v večnamensko učilnico?

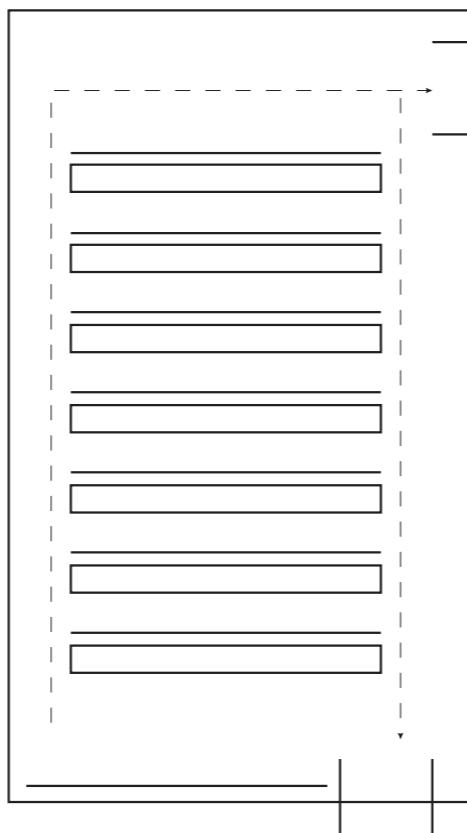

Ali imamo voljo za kaj takega ali stari rek - desperation makes inspiration - ne velja več?

In čisto nepričakovano v nas se je prebudil duh naših babic, ki so iz starih plaščev izdelovale hlače, plašče, krila, klobuke ...

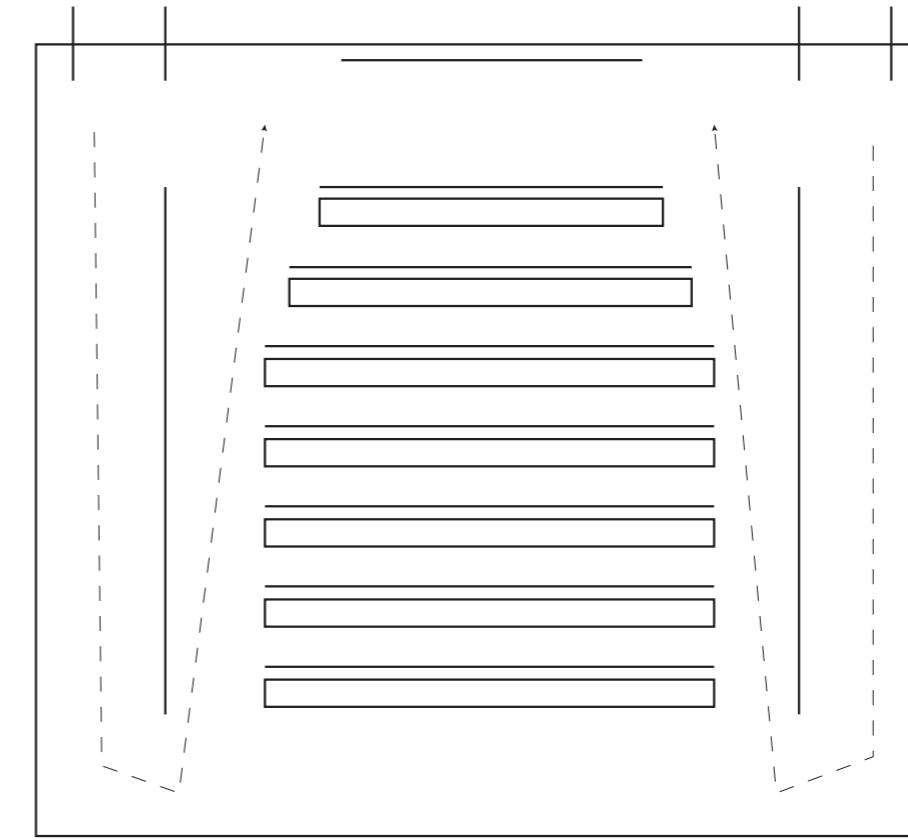

Zavihali smo rokave in šli v akcijo!

Kup starih desk smo najprej razvrstili po vrsti in velikosti. Že na prvi pogled je bilo jasno, da imamo dovolj materiala za stole in mize, ne pa tudi za police, ki jih bomo zagotovo potrebovali za razstavo seminarskih del ob koncu leta. Ta problem nas je pripeljal do ideje, da bi lahko police naredili iz stolov, če bi najdli način, da jih preprosto zložimo skupaj.
